

# Aculon® NanoProof® 3 Series Electronic Coating

Aculon® NanoProof® 3 series offers anti-wetting, anti-stiction, chemical protection, corrosion protection and moisture protection of printed circuit boards and electronic components. The NanoProof® 3 has similar performance and chemical properties as 3M™ Novec™ products providing a readily available and accessible alternative to the 3M™ Novec™ product series. Aculon® NanoProof® surface coating is capable of imparting hydrophobicity and oleophobicity to a wide variety of surfaces in a simple, one-step process. It is designed for multi-surface treatment on metals, semiconductors, and polymers.

Solids	Solvent	Color
NanoProof 3-001X (0.1%)	Fluorosolvent	Clear
NanoProof 3-002 (0.2%)	Fluorosolvent	Light green
NanoProof 3-01 (1%)	Fluorosolvent	Light green
NanoProof 3-02 (2%)	Fluorosolvent	Light green
NanoProof 3-04 (4%)	Fluorosolvent	Light green
NanoProof 3-08 (8%)	Fluorosolvent	Light green
NanoProof 3-10 (10%)	Fluorosolvent	Light green
Physical Properties of Formulation (all values @ 25°C)		
Viscosity*	< 20 cP	
Boiling Point of Solvent	To be Determined, 56-61°C (133-142°F)	
Flash Point	Not applicable	
Non-flammability	Meets UL 94 V-0	
Environmental	Low in toxicity, non-ozone depleting, low in GWP, RoHS compliant and VOC exempt (per U.S.-EPA), contains no chlorine or bromine	
Shelf Life	2 Years (Unopened container)	
Specific Gravity	1.5 g/ml	
*Determined by Zahn Cup #1 testing		
Physical Properties of Post Treatment Coating		
Tg (glass transition)	95°C	
Thermal Stability of Dry Film	Can withstand 175°C for 24hrs and maintain repellency	
Thermal Conductivity	In Process	
Coefficient of Thermal Expansion	In Process	
Water Contact Angle	120°	
Oil Contact Angle	80°	
Refractive Index	1.376 @632.8nm	
Solder Through Repairability	Yes	
Electrical Properties		
Dielectric Breakdown Strength (@35% RH)	3600 V/mil	
Moisture and Insulation Resistance	2.54E+12 Ω	
Volume Resistivity	6.33E+13 Ω·cm (@30 VDC)	
Dielectric Constant	In Process	
Dissipation Factor	In Process	

## Features

- Creates moisture barriers on coated parts
- Repels water, oil, and other liquid organic materials
- Adheres to a variety of surfaces ensuring protection of PCBs.
- Easy to apply and dries quickly without the need for curing
- Thermally and electrically stable

## Application Ideas

- Moisture, chemical, corrosion protection for printed circuit boards and electrical components
- Anti-wetting and anti-stiction in many diverse applications

## Chemical Compatibility

### Recommendation for tubing and plastics via application equipment

- Compatible with: PEEK, Polyethylene terephthalate (PET), Polyphenylene sulfide (PPS), Polystyrene, EPDM, ABS, Aluminum, Stainless Steel, Glass
- Avoid: Viton, HDPE, LDPE, CPVC, PVC, PTFE, PVDF, silicone, neoprene, Polypropylene, PMMA

## Application Techniques

### Surface Preparation/ Cleaning:

Ensure that the surface is free of any grease, fingerprints, adhesive residues or dirt. This can be accomplished by first degreasing the surface with solvents or by rinsing with soap and water or by rinsing with IPA. Depending on the sensitivity of your part to liquids Kyzen cleaners like Ionox I3416 or Cybersolv 141-R may be most appropriate for removing surface contamination.

Contact Aculon if you are unsure what cleaner to use and we will recommend one best suited for your application. Substrates should be coated after cleaning as soon as possible to minimize the potential for recontamination.

<b>Application Options</b>	Flow coat, selective dispense, dip, spray or brush apply. If dipping, Aculon recommends an extraction rate of 100 mm/min or less.
<b>Dilution</b>	Can be diluted with Aculon 3 Series Extender
<b>Drying/Curing</b>	Dries at room temperature in under 5 minutes.
<b>Removability</b>	Aculon 3 Series Extender

### Testing For Hydrophobicity:

Allow droplets of water to fall onto the surface, they should bead up to a contact angle >90°. If the surface is not hydrophobic clean the surface again and reapply.

### Safety, Handling, Storage, Shelf Life:

Store in a cool (~25°C) and dry area, and keep away from direct sun light. See this product's SDS for proper handling. When stored properly, product has a 2 year shelf life.

### For Additional Information:

To request additional product information or sales assistance, contact Aculon's Technical Team, at 858-350-9474. For information on other Aculon products, please visit our website at [www.aculon.com](http://www.aculon.com).

**Product Use:** All statements, technical information and recommendations contained in this document are based on tests or experience that Aculon believes to be dependable. However, many factors beyond Aculon's control can affect the use and effectiveness of an Aculon product in a particular use or application, including conditions under which the product is used and the time and conditions in which the product is expected to perform. Since these factors are exclusively within the user's knowledge and control, it is essential that the user evaluate the Aculon product to determine whether it is fit for a specific purpose and suitable for the user's method of application.

**Warranty and Liability:** Aculon makes no warranty or representation, expressed or implied, by operation of law or otherwise, as to the merchantability or fitness for a particular purpose of the goods arising out of a course of dealing, custom or usage of trade. Aculon shall not be liable for any defect in the goods sold hereunder and customer releases Aculon from any and all liability for negligence. Aculon will not be liable for consequential, incidental or any damages other than repair or replacement of defective good or refund of the purchase price paid for such defective goods.
