Certificate of Compliance – UL YELLOW CARD Declaration

Product Series: Linqsol GCP1805
Part Number: GCP1805
Description: Halogen-free Epoxy Coating Powder

BACKGROUND

Customers often ask if our products are Underwriters Laboratory (UL) Certified. The reason they ask this, is because they, in turn need to provide UL certification on their products to their customers. CAPLINQ understands this, but costs of UL-certification can easily run into the thousands of dollars.

To complicate this, UL certification is often done only on a single version of a product and needs to be retested for additional variations including color, filler types and sizes and minor modifications. Multiply this by the number of products that CAPLINQ offers and the costs of UL-certifying every product become cost-prohibitive.

As such, CAPLINQ has adopted a policy whereby the UL certification tests are done in-house according to the UL Certification standard listed and are submitted for UL Certification once a letter of intent to purchase is received.

INTERNAL UL YELLOW CARD DATA

Flammability	Nominal Value	Unit	Test Method	Result
UL Flame Rating			UL 94 IEC 60695-11-10, -20	
0.5 mm, ALL	V-0	-		PASS
2.0 mm, ALL	V-0	-		PASS
Thermal	Nominal Value	Unit	Test Method	
RTI Elec			UL 746	
0.5 mm	130	°C		PASS
2.0 mm	130	°C		PASS
RTI Imp			UL 746	
0.5 mm	130	°C		PASS
2.0 mm	130	°C		PASS
RTI Str			UL 746	
0.5 mm	130	°C		PASS
2.0 mm	130	°C		PASS
